**AI Assessment**

***Create interview once!  
Interview 1000s!***

# Creating an efficient recruiting process

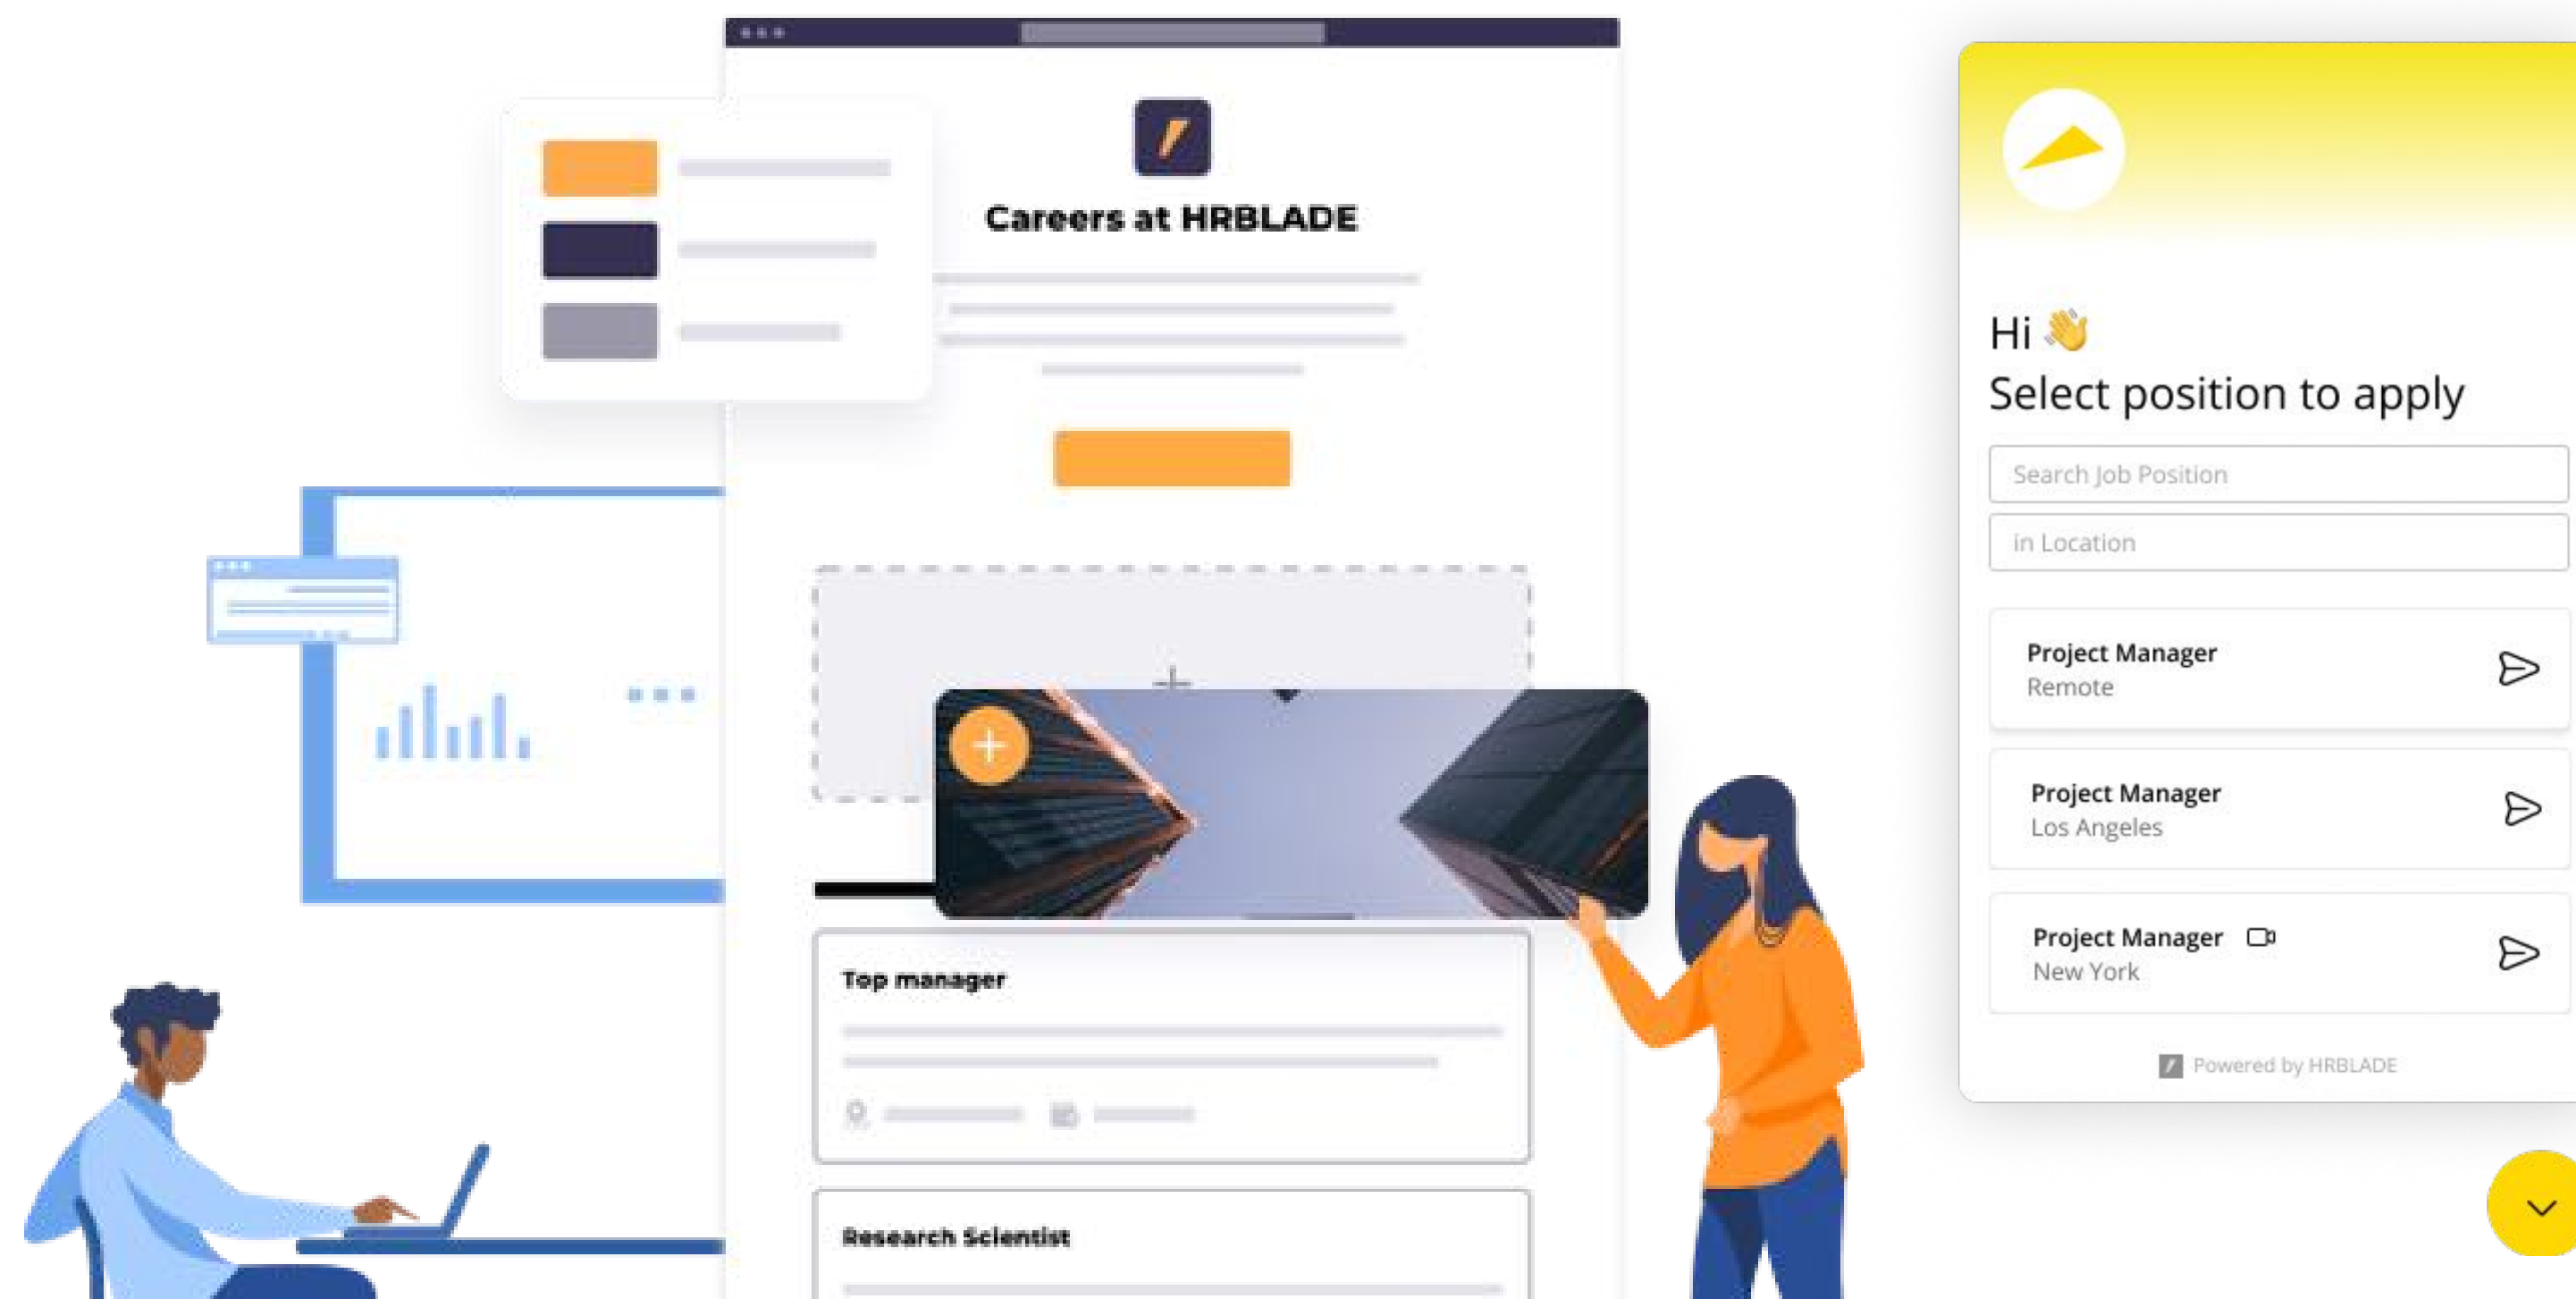

Integrated ATS, collaboration tools, templates, automated screening, and real-time analytics

# Attract talent and boost applications

Functional careers page builder and application form builder, chat widgets

# Hire & Test Remotely

Online Testing Solution and On-demand audio, video, and text interviews

The collage illustrates the remote hiring and testing process. It features a QR code for access, a woman on a phone, a smartphone displaying a 'Cashier' job application with a text response: 'As a barista in my previous job, I engaged with customers every day, taking their orders, chatting with them, and making sure they enjoyed their experience.' Another smartphone shows a candidate profile for 'Ruby Hamilton' with a video interview. A third smartphone shows a 'Question 1' video recording interface. A globe and an illustration of a woman sitting on a rock are also present.

# Recruiting fairly

Structured interviews, evaluation system, plagiarism checker, and AI rating system

The screenshot displays a candidate profile for Ruby Hamilton, a Top manager, with a 5-star rating. The interface includes a skills assessment section with progress bars for Communication (99%), Problem solving, Team Orientation, and Cognitive Ability. A 'Set your score' button shows an AI score of 6.5. A video player shows a candidate's response to 'Question 1'. A plagiarism checker indicates 78% similarity from 14 sources. A 'Set your score to candidate' panel allows manual scoring for each skill. The bottom section shows a 'Comments' area with feedback from Eva Macdonald and Stanley Fletcher.

Skill	Score / Progress
Communication	99%
Problem solving	Progress bar
Team Orientation	Progress bar
Cognitive Ability	Progress bar

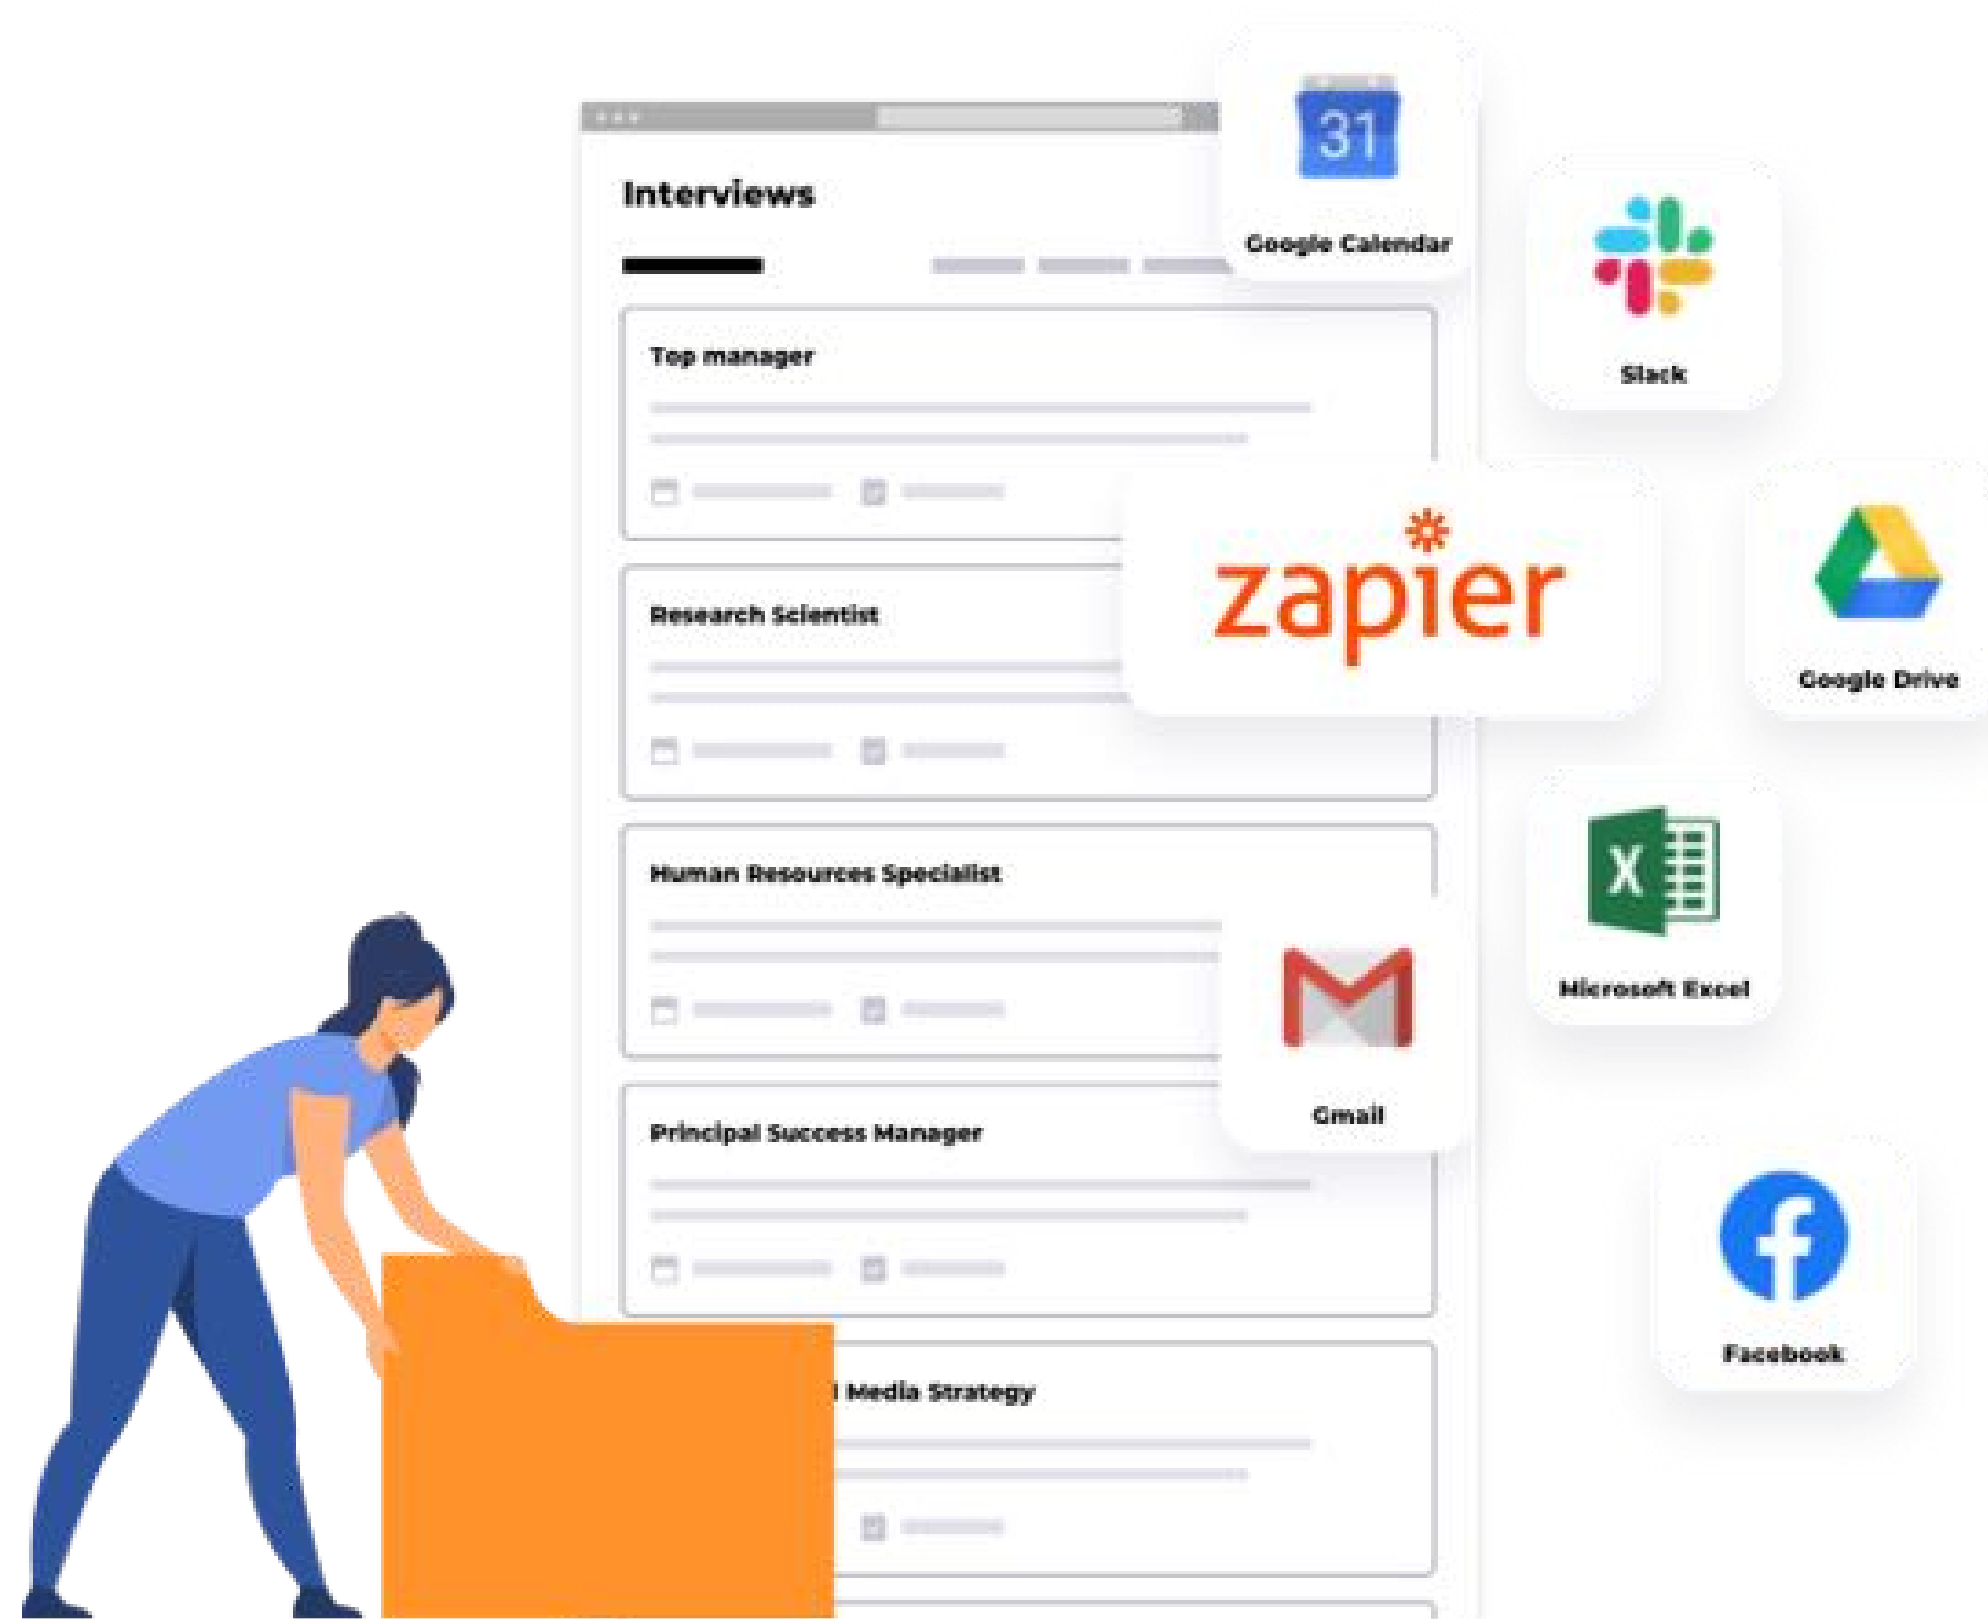

Skill	Star Rating
Communication	4.5 stars
Problem solving	5 stars
Team Orientation	4 stars
Cognitive Ability	5 stars
